

## Feldschlösschen STAMMHAUS

**1644**

*a single farm in the Südvorstadt had the Permission to serve beer and wine. About forty years later, outside the courtyard, the „little castle“ in the field was built, a popular excursion restaurant.*

**1838**

*The Meisl brothers bought the property and started the construction of a lager brewery at the old Feldschlösschen.*

**1909**

*the Feldschlösschen brewery was awarded with the merit medal of the Royal Capital and Residence City of Dresden excellence.*

**1939**

*the brewery was damaged 55 percent during the war. But in 1945 the production could resume.*

**1991**

*the production of Feldschlösschen Pilsner began in the Saxon Brewing Union. As a result the brewing company in the Feldschlösschen Brewery Budapester Straße was discontinued.*

**1998**

*The restaurant „Feldschlösschen Stammhaus“ opened. It is now located in the restored nacelle of the former Feldschlösschen brewery on Budapester Straße.*

**2021**

*the main building was extensively rebuilt and now shines as a completely new and stylish brewery atmosphere.*
